

B4M36DS2, BE4M36DS2: Database Systems 2

<http://www.ksi.mff.cuni.cz/~svoboda/courses/211-B4M36DS2/>

Practical Class 0

Organization

Martin Svoboda

martin.svoboda@fit.cvut.cz

20. 9. 2021

Charles University, Faculty of Mathematics and Physics

Czech Technical University in Prague, Faculty of Electrical Engineering

Lab Accounts

Lab E-328 user accounts

- Set your new password
 - <https://www.felk.cvut.cz/labpass/>

NoSQL Server

NoSQL server

- SSH and SFTP access
- **nosql.ms.mff.cuni.cz:42222**
 - XPath, XQuery, SPARQL, MapReduce, Riak, Redis, Cassandra, MongoDB, Neo4j
- Login and password: sent by e-mail

Useful Tools

Linux

- `ssh -p port login@host`
 - `exit`
- `sftp -P port login@host`
 - `cd directory`
 - `ls`
 - `put local remote`
 - `get remote local`
 - `bye` or `exit`

Windows

- **PuTTY** – <http://www.chiark.greenend.org.uk/~sgtatham/putty/>
- **WinSCP** – <http://winscp.net/>

Firsts Steps

Change your initial password

- passwd

Browse important directories

- /home/login/ – personal directory with your data
- /home/DS2/ – shared directory with course data

Homework Assignments

Learn how to submit your home assignments

- `submit` `name`
 - Submits everything located in a sub-directory with name `name`
 - This `name` parameter must also correspond to one of the predefined assignment names (e.g. `mapreduce`, ...)
